

# Key Investor Information

**This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.**

## Bryth ICVC

ISIN: GB00B1Y1P004

This Fund is managed by Thesis Unit Trust Management Limited.

### Objectives and Investment Policy

The investment objective of the Fund is to provide long-term capital growth and also growth in income.

The Fund will seek to do this by investing in:

- transferable securities;
- money market instruments;
- deposits;
- units in collective investment schemes; and
- derivative instruments and forward transactions.

The Fund will invest in accordance with the asset mix guidelines set out below. Emphasis will be placed on investment in Canada (it is expected that the Fund will invest 40-100% in Canadian investments).

Usually, less than 20% of the Fund will be held in cash or near cash although there may be times when this could be higher, such as when the stock markets are uncertain or volatile.

Fund selections and recommendations are made using a mix of quantitative and qualitative analysis. Analysts consider medium to long-term cumulative performance of funds (including ETFs) but also investigate discrete period returns and risk metrics. Fund managers passing filter tests are then met in order to gain an understanding of their investment process and current market positioning. Terms will be negotiated with any fund house chosen and thereafter due diligence is on-going through regular assessment of performance and update meetings.

The base currency of the Fund is Canadian dollars.

Income arising from the Fund is distributed to the holders of income shares. Investors can buy and sell shares on demand when the scheme prices daily at 12 midday.

### Risk and Reward Profile

The risk rating of the Fund is category 4 due to the volatility of the Fund price which sits in a range of between 5% and 10%. The risk rating is calculated using historical data and a prescribed standard deviation methodology.

- This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.
- The risk and reward category shown is not guaranteed to remain unchanged and may shift over time.
- The lowest category does not mean 'risk free'.
- This indicator is not a measure of the risk that you may lose the amount you have invested.

The following risks are material in addition to the risks captured by the indicator above:

- Where derivative or structured product investments in the Fund may include a counterparty, there is a risk that the counterparty will not fulfil their obligation.
- Where investments in the Fund are in currencies other than your own, changes in exchange rates may affect the value of your investments.
- The Fund may use approved derivatives for the purpose of hedging only. Hedging is when a position is taken to offset a risk in an opposing currency, market or investment. It is anticipated that the outcome of the use of derivatives would be to reduce, rather than to increase, the risk profile of the Fund.
- Investment in other funds may mean that the objectives and risk profiles of those underlying funds may not (always) be fully in line with those of the Fund.
- The price of units/shares and any income from them may fall as well as rise and investors may not get back the full amount invested. Past performance is not a guide to future performance. There is no assurance that the investment objective of the Fund will actually be achieved.
- Significant exposure to a particular industrial sector or geographical region puts the fund at risk of a localised event making a significant impact on the value of the Fund.
- The price of gold/natural resources in which the Fund invest may be subject to sudden, unexpected and substantial fluctuations that may lead to significant declines in the values of the shares concerned and hence the Net Asset Value of the Fund.
- Where investments are in the shares of companies (equities), the value of those equities may fluctuate, sometimes dramatically, in response to the activities and results of individual companies or because of general market and economic conditions or other events.

All the risks currently identified as being applicable to the Fund are set out in the 'Risk' section of the Prospectus.

## Charges for this Fund

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry Charge	6.00%
Exit Charge	None
This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investments are paid out	
Ongoing charges	1.43%
Charges taken from the Fund under certain specific conditions	
Performance fee	None

The entry and exit charges shown are maximum figures. In some cases you might pay less - you can find this out from your financial adviser.

The ongoing charge is based on last year's expenses for the year ending 31st December 2016. This figure may vary from year to year. It excludes:

- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units/shares in another collective investment scheme.

For more information about charges, please see section headed 'Payments out of Scheme Property' of the Fund's Prospectus, which is available on request via email to [thesisut@tutman.co.uk](mailto:thesisut@tutman.co.uk)

## Past Performance

Performance source: Morningstar Direct

- The Fund launched in 2007
- The bar chart shows the calendar year returns for the last 9 full calendar years. If a column is blank, there is insufficient performance data to provide a complete calendar year of performance
- Past performance has been calculated in Canadian dollars
- Performance will be calculated as Total Return, including all charges levied against the Fund
- Past performance has limited value as a guide to future performance
- Investments may go down as well as up

## Practical Information

The depositary of the Fund is National Westminster Bank Plc. The depositary has delegated the function of custodian to RBC Investor Services Limited.
