TM Credit Suisse Growth Fund - Class A

A sub fund of the TM Credit Suisse Fund

ISIN: GB00BVB2Q924

This Fund is managed by Thesis Unit Trust Management Limited.

Objectives and Investment Policy

The investment objective of the Fund is to provide both income and capital growth over the long term. The aim is to have a diversified portfolio and invest in a broad range of asset classes, primarily in a portfolio of equities and collective investment schemes (comprising 45% to 75% of the portfolio) in various companies and markets across the globe. There will be no emphasis placed on any particular economic, industrial or geographic sector.

The Fund will make the following types of investments:

- equity investments in companies;
- units in collective investment schemes (meaning other funds, or pooled investment vehicles); and
- bonds issued by companies or governments.

Other investments may be in:

- other types of transferable securities;
- money market instruments (such as bank deposits or short term debt instruments);
- deposits;
- warrants (such as options to buy bonds); and
- cash or other assets that have a similar characteristic to cash.

The Fund may also use derivatives or forward transactions for hedging purposes only. Derivatives are linked to the rise and fall in value of other assets, meaning their price comes from the value of that other asset.

The Fund is available for investment by any type of investor. The investor must be able to accept the risk of losses, so the Fund may be appropriate for investors who can afford to set aside capital for at least five years.

Fund selections and recommendations are made using a mix of quantitative and qualitative analysis. Analysts consider medium to long-term cumulative performance of funds (including ETFs) but also investigate discrete period returns and risk metrics. Fund managers passing filter tests are then met in order to gain an understanding of their investment process and current market positioning. Terms will be negotiated with any fund house chosen and thereafter due diligence is on-going through regular assessment of performance and update meetings.

The base currency of the Fund is pounds sterling.

Income arising from the Fund is distributed to the holders of income shares and reinvested in the case of accumulation shares. Investors can redeem shares on demand when the scheme prices daily at 12 midday.

Risk and Reward Profile

The risk rating of the Fund is category 4 due to the volatility of simulated data which sits in a range of between 5% and 10%. The risk rating is calculated using historical data and a prescribed standard deviation methodology. The simulated data used is consistent with risk limits of the Fund.

- This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.
- The risk and reward category shown is not guaranteed to remain unchanged and may shift over time.
- The lowest category does not mean 'risk free'.
- This indicator is not a measure of the risk that you may lose the amount you have invested.

The following risks are material in addition to the risks captured by the indicator above:

- This Fund is allowed to use derivatives to achieve its objective. Derivatives can cause a Fund to become leveraged. Leverage occurs when exposure to an area invested in is greater than its amount invested, resulting in the Fund being exposed to a potentially greater loss than the initial investment.
- Where derivative or structured product investments in the Fund may include a counterparty, there is a risk that the counterparty will not fulfil their obligation.
- Where investments in the Fund are in currencies other than your own, changes in exchange rates may affect the value of your investments.
- The price of units/shares and any income from them may fall as well as rise and investors may not get back the full amount invested. Past performance is not a guide to future performance. There is no assurance that the investment objective of the Fund will actually be achieved.
- The price of gold/natural resources in which the Fund invest may be subject to sudden, unexpected and substantial fluctuations that may lead to significant declines in the values of the shares concerned and hence the Net Asset Value of the Fund.
- Investment in other funds may mean that the objectives and risk profiles of those underlying funds may not (always) be fully in line with those of the Fund.
- Significant exposure to a particular industrial sector or geographical region puts the fund at risk of a localised event making a significant impact on the value of the Fund.
- More political, economic or structural challenges face emerging markets or less developed countries than developed countries which may increase volatility and uncertainty.
- Where investments are in the shares of companies (equities), the value of those equities may fluctuate, sometimes dramatically, in response to the activities and results of individual companies or because of general market and economic conditions or other events.

All the risks currently identified as being applicable to the Fund are set out in the 'Risk' section of the Prospectus.

Charges for this Fund

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry Charge	5.00%
Exit Charge	None
This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investments are paid out	
Ongoing charges	1.65%
Charges taken from the Fund under certain specific conditions	
Performance fee	None

The entry and exit charges shown are maximum figures. In some cases you might pay less - you can find this out from your financial adviser.

The ongoing charge is based on last year's expenses for the year ending 30th June 2017. This figure may vary from year to year. It excludes:

- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units/shares in another collective investment scheme.

For more information about charges, please see section headed "Charges and Expenses" of the Fund's Prospectus, which is available on request via email to thesisut@tutman.co.uk
