TM Levitas B Fund

A sub fund of the TM Levitas Funds

ISIN: GB00B56XFC41

This Fund is managed by Thesis Unit Trust Management Limited.

Objectives and Investment Policy

The Fund's objective is to generate growth over the long term.

To achieve its objective, the Fund will be actively managed and primarily invested in a variety of collective investment schemes that will have substantial exposure to fixed income and other defensive asset types (including but not limited to commodities, convertible bond funds, UCITS long short funds, market neutral hedge funds and private equity) and with some exposure to UK and international equities, to provide an overall defensive investment mixture of income generating assets.

The Fund may also invest in transferable securities, money market instruments, exchange traded funds, cash and cash deposits.

The use of derivatives and hedging transactions is only permitted in connection with the efficient portfolio management of the Fund (including hedging).

The Fund has the power to use derivatives and forward transactions for investment purposes but this power would not be exercised without providing Shareholders with at least 60 days' advance notice. Should the ACD and the Investment Adviser decide to invest in derivatives and forward transactions for investment purposes, the net asset value of the Fund could at times be volatile (in the absence of compensating investment techniques) and the risk profile of the Fund could therefore be increased. However, it is the ACD's intention that in those circumstances, the Fund, owing to its portfolio composition or the portfolio management techniques used, would not have volatility over and above the general market volatility of the markets of its underlying investments.

Recommendation: This Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Fund selections and recommendations are made using a mix of quantitative and qualitative analysis. Analysts consider medium to long-term cumulative performance of funds (including ETFs) but also investigate discrete period returns and risk metrics. Fund managers passing filter tests are then met in order to gain an understanding of their investment process and current market positioning. Terms will be negotiated with any fund house chosen and thereafter due diligence is on-going through regular assessment of performance and update meetings.

The base currency of the Fund is pounds sterling.

Income arising from the Fund is distributed to the holders of income shares and reinvested in the case of accumulation shares. Investors can buy and sell shares on demand when the scheme prices daily at 12 midday.

Risk and Reward Profile

The risk rating of the Fund is category 3 due to the volatility of the Fund price which sits in a range of between 2% and 5%. The risk rating is calculated using historical data and a prescribed standard deviation methodology.

- This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.
- The risk and reward category shown is not guaranteed to remain unchanged and may shift over time.
- The lowest category does not mean 'risk free'.
- This indicator is not a measure of the risk that you may lose the amount you have invested.

The following risks are material in addition to the risks captured by the indicator above:

- Where derivative or structured product investments in the Fund may include a counterparty, there is a risk that the counterparty will not fulfil their obligation.
- The Fund may use derivatives to reduce costs, overall risk and/or generate additional capital or income. This is known as Efficient Portfolio Management (EPM). When used for EPM purposes, there should not be an increase in the overall risk level of the Fund.
- More political, economic or structural challenges face emerging markets or less developed countries than developed countries which may increase volatility and uncertainty.
- Investment in other funds may mean that the objectives and risk profiles of those underlying funds may not (always) be fully in line with those of the Fund.
- The price of units/shares and any income from them may fall as well as rise and investors may not get back the full amount invested. Past performance is not a guide to future performance. There is no assurance that the investment objective of the Fund will actually be achieved.
- Significant exposure to a particular industrial sector or geographical region puts the fund at risk of a localised event making a significant impact on the value of the Fund.
- Bond values are affected by changes in interest rates, inflation and any decline in creditworthiness of the bond issuer.
- Credit risk is the risk of loss stemming from a borrower's failure to repay the loan or meet its contractual obligation.

All the risks currently identified as being applicable to the Fund are set out in the 'Risk' section of the Prospectus.

Charges for this Fund

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry Charge	5.00%
Exit Charge	None
This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investments are paid out	
Ongoing charges	2.18%
Charges taken from the Fund under certain specific conditions	
Performance fee	None

The entry and exit charges shown are maximum figures. In some cases you might pay less - you can find this out from your financial adviser.

The ongoing charge is based on last year's expenses for the year ending 30th June 2017. This figure may vary from year to year. It excludes:

- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units/shares in another collective investment scheme.

For more information about charges, please see the section headed 'Charges and Expenses' in the Fund's Prospectus, which is available on request via email to thesisut@tutman.co.uk
