

Non-UCITS retail scheme Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

TM Lime Fund

This Fund is managed by Thesis Unit Trust Management Limited ISIN (Accumulation):

GB00B8CJP381

ISIN (Income): GB00B85MRT46

Objectives and Investment Policy

The investment objective of the Company is to achieve growth in capital and income, net of fees, over a rolling 5 year period.

The Investment Managers adopt a flexible investment strategy and may invest in some or all sectors and in some or all world markets, (including the UK) in order to best take advantage of economic opportunities worldwide. The assets in which the Company will invest will be equities, fixed income investments (for example, corporate and government bonds) and other transferable securities. The Company may also invest in Exchange Traded Notes and Exchange Traded Commodities, money market instruments, deposits, cash and near cash investments and alternatives (for example, gold, commodities and infrastructure). The composition of the Scheme Property as between equities, fixed income and other assets, will vary over time in response to the Investment Managers' views of the economic and market environment. Between 50% and 100% of the above exposure will be gained through the use of collective investment vehicles (including those managed by the ACD or its associates or the Investment Managers or their associates), which may include investment trusts, Exchange Traded Funds and Index Funds. Typically regulated collective investment vehicles will be used but unregulated collective investment vehicles may also be used in accordance with the FCA Rules. The allocation to collective investment vehicles will vary within the range of 50%-100% depending on markets and to take advantage of the expertise available via such collective investment vehicles. All other exposure will be attained from direct investments. However, the Company will only hold alternatives indirectly via permitted instruments such as collective investment vehicles. In addition, the Company may enter into derivatives transactions for Efficient Portfolio Management (including hedging) in accordance with the FCA Rules, (although use is expected to be limited). The Company appoints multiple Investment Managers to achieve its objective. Allocations to Investment Managers are subject to change in order to meet the Company's objective and further details regarding the allocations are available upon request from the ACD. The Investment Managers will actively manage the Company. This means the Investment Managers actively make decisions about how to invest the Scheme Property (and which investments to buy and sell) instead of simply following a market index.

The base currency of the Fund is pounds sterling.

Income arising from the Fund is distributed to the holders of income shares, and reinvested in the case of accumulation shares. Investors can buy and sell shares on demand when the scheme prices daily at 12 midday.

Risk and Reward Profile

The risk rating of the Fund is category 4 due to the volatility of the Fund price which sits in a range of between 5% and 10%. The risk rating is calculated using historical data and a prescribed standard deviation methodology.

- This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.
- The risk and reward category shown is not guaranteed to remain unchanged and may shift over time.
- The lowest category does not mean 'risk free'.
- This indicator is not a measure of the risk that you may lose the amount you have invested.

The following risks are material in addition to the risks captured by the indicator above:

- The price of units/shares and any income from them may fall as well as rise and investors may not get back the full amount invested. Past performance is not a guide to future performance. There is no assurance that the investment objective of the Fund will actually be achieved.
- Where investments are in the shares of companies (equities), the value of those equities may fluctuate, sometimes dramatically, in response to the activities and results of individual companies or because of general market and economic conditions or other events.
- Investment in other funds may mean that the objectives and risk profiles of those underlying funds may not (always) be fully in line with those of the Fund.

All the risks currently identified as being applicable to the Fund are set out in the 'Risk' section of the Prospectus.

Charges for this Fund

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry Charge	5.00%
Exit Charge	None
This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investments are paid out	
Ongoing charges	2.34%
Charges taken from the Fund under certain specific conditions	
Performance fee	None

The entry and exit charges shown are maximum figures. In some cases you might pay less - you can find this out from your financial adviser.

The ongoing charge is based on last year's expenses for the year ending 31st December 2023. This figure may vary from year to year. It excludes:

- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units/shares in another collective investment scheme.

For more information about charges, please see section headed "Charges and Expenses" of the Fund's Prospectus, which is available on request via email to thesisut@tutman.co.uk

Past Performance

(a) The Fund launched in 2012

(b) The bar chart shows the calendar year returns for the last 10 full calendar years. If a column is blank, there is insufficient performance data to provide a complete calendar year of performance

(c) Past performance has been calculated in pounds sterling

(d) Performance will be calculated as Total Return, including all charges levied against the Fund

(e) Past performance has limited value as a guide to future performance

(f) Investments may go down as well as up
