

# Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

## TM Tellworth UK Smaller Companies Fund Class M

A sub Fund of the TM Tellworth Investments Funds

This Fund is managed by Thesis Unit Trust Management Limited

ISIN (Accumulation):

GB00BDM8F84

### Objectives and Investment Policy

The Sub-fund aims to provide long term (in excess of 5 years) capital growth, by investing in shares of small-sized UK companies.

The Sub-fund will invest at least 80% of its assets, directly or indirectly in shares of small-sized UK companies. These are companies that are domiciled, incorporated or have a significant portion of their business in the UK and, have a market capitalisation within the bottom 10% of the UK equities market.

The Sub-fund may also invest in shares of medium and large-sized UK companies, collective investment schemes (including those managed by the ACD), warrants, unlisted securities and hold cash. The Sub-fund may also use derivatives such as futures, options and swaps for efficient portfolio management.

The Sub-fund is not constrained by any index or sector weightings and as a result it may be invested in a concentrated number of securities and may have biases towards certain sectors from time to time.

The portfolio is constructed using a bottom-up stock selection approach with the individual company's financial position and future prospects being the primary criteria. The Investment Manager in particular will look to identify companies with differentiation products, niche market positions, strong profit margin potential and good management teams. In addition to companies with these characteristics the Investment Manager will also look to invest in other smaller companies which it considers are under-valued.

The Sub-fund's performance may be compared against the Deutsche Numis Smaller Companies plus AIM Index excluding Investment Companies (referred to as 'comparator benchmark'). The comparator benchmark has been selected as we consider it assists in evaluating the Sub-fund's performance against the performance of the principle underlying asset class (UK smaller capitalised companies) the fund invests in. The Sub-fund is not constrained by the benchmarks and may take positions that differ significantly from the benchmarks.

The base currency of the Fund is pounds sterling.

Income arising from the Fund is reinvested in the case of accumulation shares. Investors can buy and sell shares on demand when the scheme prices daily at midday.

### Risk and Reward Profile

The risk rating of the Fund is category 6 due to the volatility of the Fund price which sits in a range of between 15% and 25%. The risk rating is calculated using historical data and a prescribed standard deviation methodology.

The Sub-fund aims to provide long term (in excess of 5 years) capital growth, by investing in shares of small-sized UK companies.

The Sub-fund will invest at least 80% of its assets, directly or indirectly in shares of small-sized UK companies. These are companies that are domiciled, incorporated or have a significant portion of their business in the UK and, have a market capitalisation within the bottom 10% of the UK equities market.

The Sub-fund may also invest in shares of medium and large-sized UK companies, collective investment schemes (including those managed by the ACD), warrants, unlisted securities and hold cash. The Sub-fund may also use derivatives such as futures, options and swaps for efficient portfolio management.

The following risks are material in addition to the risks captured by the indicator above:

- The price of units/shares and any income from them may fall as well as rise and investors may not get back the full amount invested. Past performance is not a guide to future performance. There is no assurance that the investment objective of the Fund will actually be achieved.
- Where investments are in the shares of companies (equities), the value of those equities may fluctuate, sometimes dramatically, in response to the activities and results of individual companies or because of general market and economic conditions or other events.
- Significant exposure to a particular industrial sector or geographical region puts the fund at risk of a localised event making a significant impact on the value of the Fund.
- Smaller companies may have lower liquidity levels than those on main exchanges, which may impact the timing of sales, and the value received due to time constraints.
- The Fund may hold assets that are not always readily saleable without suffering a discount to fair value. When raising liquidity the Fund may have to lower the selling price, sell other investments or forego another, more appealing investment opportunity.

All the risks currently identified as being applicable to the Fund are set out in the 'Risk' section of the Prospectus.

## Charges for this Fund

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry Charge	5.00%
Exit Charge	None
This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investments are paid out	
Ongoing charges	0.15%
Charges taken from the Fund under certain specific conditions	
Performance fee	None

The entry and exit charges shown are maximum figures. In some cases you might pay less - you can find this out from your financial adviser.

The ongoing charge is based on last year's expenses for the year ending 31st March 2024. This figure may vary from year to year. It excludes:

- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units/shares in another collective investment scheme.

For more information about charges, please see section headed "Fees and Expenses" of the Fund's Prospectus, which is available on request via email to [thesisut@tutman.co.uk](mailto:thesisut@tutman.co.uk)

## Past Performance

(a) The Fund launched in 2018. The TM Tellworth UK Smaller Companies Fund Class M launched in 2019

(b) The bar chart shows the calendar year returns for the last 5 full calendar years. If a column is blank, there is insufficient performance data to provide a complete calendar year of performance

(c) Past performance has been calculated in pounds sterling

(d) Performance is calculated as Total Return, including all charges levied against the Fund

(e) Past performance has limited value as a guide to future performance

(f) Investments may go down as well as up
